MISSED APPOINTMENT (NO-SHOW) POLICY

Patient Name: _____ DOB: _____

Please **read carefully**, and **initial** below:

At CHCCO, our goal is to provide excellent service in a timely manner, and we need your help.

Canceled appointments, missed appointments, and arriving late for an appointment all affect our ability to stay open, on schedule, give timely appointments to patients who need them, and provide an excellent level of care. We make an effort to be accommodating in our scheduling, so that the needs of our patients can be met. Although we have always asked our patients and their families to notify us if they will be unable to make their appointment, circumstances have made it necessary for us to implement a Missed Appointment Policy. We want to make certain that appointments are kept available for those patients who need and desire them.

_____(initial) If I am unable to come to my appointment, I will notify CHCCO as soon as possible, and no later than **24 hours** before the appointment.

_____(initial) If I don't show for an appointment, or if I reschedule within 24 hours of my appointment, I will be charged a fee of \$100, and this will not be covered by my health insurance plan.

_____(initial) If I am more than 15 minutes late for an appointment, the appointment may need to be rescheduled.

_____(initial) Patients with multiple no-shows will not be rescheduled, so that appointment times can be made available to those who need and desire them.

I, (print) _____ (patient or responsible party),
acknowledge that I have read and understand the statements above, and that I am responsible
for charges to my account.

ECHO (echocardiogram)

Your child has been referred for an echocardiogram (“echo”), or ultrasound of the heart. The echo will take approximately 30 to 60 minutes and is a safe and reliable method of evaluating the structure of your child’s heart. The sonographer performing the examination is specifically trained in pediatric echocardiography techniques. The results of the echocardiogram will not be available until the echocardiogram is reviewed by a pediatric cardiologist, who will send a report to the provider who ordered the test. That provider will then notify you of the results. In most cases, results are available within 24-48 hours of when the echocardiogram is performed. If a serious abnormality is found, the referring provider will be notified immediately.

If you have been referred for an echocardiogram only, you will not meet with a pediatric cardiologist at the time of your appointment. Cardiology consultation may be requested by referring providers or parents by calling 541-639-8333.

For young children...

An echocardiogram requires that your child be relatively still during the time it takes to perform the study. Sometimes, young children (especially those under 3 years of age) are unable to lie still for this length of time, and we are unable to perform an accurate and complete study; in those cases, light sedation can be used to improve the quality of the study. Sedation can be performed only with consultation and supervision of the pediatric cardiologist, so cannot be done during “echo only” visits. Our echo room is equipped with a television, DVD player and toys, but please feel free to bring any items that you feel may assist your child in cooperating with the study. Family members are welcome to stay with the child while the test is being performed.

Please contact us at 541-639-8333 with any questions about your appointment. We look forward to seeing you!
